

**INTERNATIONAL RESEARCH
AND PRACTICE CONFERENCE
“NANOTECHNOLOGY
AND NANOMATERIALS”**

The NANO-2023 Conference is dedicated
to the brave men and women serving in the Armed Forces
of Ukraine, who safeguard freedom and peace in Ukraine

**16-19 of August 2023
Bukovel, UKRAINE**

Abstract book

УДК 536:669

The International research and practice conference “Nanotechnology and nanomaterials” (NANO-2023). Abstract Book of participants of the International research and practice conference, 16–19 August 2023, Bukovel. Edited by Dr. Olena Fesenko. – Kyiv: LLC APP POLYGRAPH SERVICE, 2023. – P. 640.

This book contains the abstracts of contributions presented at the International research and practice conference “Nanotechnology and Nanomaterials” (NANO-2023).

The NANO-2023 Conference was organized by the Institute of Physics of NAS of Ukraine with the participation of the University of Tartu (Estonia), the Lviv Polytechnic National University, University of Turin (Italy) and Pierre and Marie Curie University – Paris 6 (France).

NANO-2023 was the 11th conference in the series of NANO-conferences initiated by the Institute of Physics of NAS of Ukraine in 2012 in the framework of FP7 Nanotwining project. From year to year, they attract more attention and participants. In 2012, the first meeting was held in the format of International Summer School for young scientists «Nanotechnology: from fundamental research to innovations». The 2013 and 2014 conferences were organized in conjunction with the International Summer Schools for young scientists under the same title. In 2013, this event was attended by more than 300 scientists, in 2014-2017, 450 scientists took part and in 2018 it gathered above 650 participants. In 2021 conference was attended by more than 700 scientists from Ukraine, Poland, Italy, Estonia, France, Austria, Germany, Greece, Turkey, USA, Romania, Moldova, Czech Republic, Taiwan, Lithuania, Egypt, Iran, India, Algeria, Indonesia and other countries. In 2021 and 2022 the Organizer Committee has received more than 500 application forms from about 25 countries of the world each years.

The NANO-2023 conference brought together leading scientists and young researchers from many countries of the world. This year its topics were as follows: Nanobiotechnology for health-care; Nanochemistry and biotechnology; Nanocomposites and nanomaterials; Nanoobjects microscopy; Nano optics and photonics; Nanoplasmonics and surface enhanced spectroscopy; Nanoscale physics; Nanostructured surfaces; Physico-chemical nanomaterials science.

Department of Institute of Physics of
NAS of Ukraine, 2023

Welcome to International Conference «NANOTECHNOLOGY AND NANOMATERIALS»!

It gives me a great pleasure to welcome you all at the International Conference “Nanotechnology and nanomaterials” (NANO-2023) that will be held in Lviv from August 16 to 19, 2023. Its aim is to promote scientific contacts and discussions between researchers representing various fields.

Previous NANO Conferences, held in Ukraine in 2013-2022, allowed the participants, including young scientists, to familiarize with current research and application problems in this area and thus forward implementation of nanotechnologies into innovations meeting public needs. The events also gave the opportunity to young and early-career researchers to attend lectures of internationally recognized experts and roundtable discussions on the emerging fields in nanosciences and nanotechnologies.

Our previous International Conferences and Summer Schools received positive feedback from international experts and from the media. Now we are holding the 11th such meeting, for which we are deeply grateful to its indefatigable initiator and organizer, Dr. Olena Fesenko and all her assistants, as well as to the universities and institutes that hospitably welcome the participants.

This year above 600 registration forms have been received from scientists representing more than 30 countries. We especially appreciate the participation in the conference of our foreign colleagues, both those who attend here and those who communicate their works remotely.

The fruitful cooperation of scientists is highly important not only to science itself. It helps us to overcome political and war conflicts and misunderstandings and to find our just peaceful future, which is now vitally important not only to Ukraine but also to other countries.

I wish the participants of the Conference to successfully share and broaden their knowledge in nanoscience and nanotechnologies, to advance the networking and launch new contacts between academia and research players in this area and thus to create a good basis for further practical contributions.

May good health serve us and promote creative success in our research!

Academician of NAS of Ukraine,
Professor

Anton G. Naumovets

Phonon spectra and electron-phonon interaction in a quantum dot – quantum ring semiconductor nanostructure

Hnidko I.S., Gutsul V.I., Koziarskyi I.P., Makhanets O.M.

*Yuriy Fedkovych Chernivtsi National University,
Kotsybubynsky St. 2, Chernivtsi-58002, Ukraine
E-mail: hnidak.ihor@chnu.edu.ua*

The intensive development of nanotechnology has made it possible to create new nanostructures with clear geometric shapes. In particular, structures containing quantum dots and nanorings have already been created and are being intensively studied [1].

In this work, we investigate a nanostructure consisting of a cylindrical semiconductor quantum dot (quantum well, GaAs medium), which through a finite potential barrier ($\text{Al}_x\text{Ga}_{1-x}\text{As}$ medium) is tunnel-connected to a coaxial cylindrical nanoring (quantum well, GaAs medium).

The stationary Schrödinger equation for an electron is solved analytically exactly. Radial wave functions are obtained as a linear combination of Bessel, Neumann, and modified Bessel functions.

As for phonon spectra, the energies of bounded and interface phonons, as well as the corresponding polarization field potentials, are found in the dielectric continuum model. In this case, the potential of the polarization field of bounded phonons is sought in the form of an expansion in terms of the complete system of cylindrically symmetric Bessel and Neumann functions. To calculate the potential of the polarization field and the energies of the interface phonons, the Laplace equation is solved in each of the regions of the multilayer nanostructure using the limiting conditions for the continuity of the tangential component of the electric field strength and the normal component of the electric bias vector.

It has been found that the energies of bounded phonons in a nanostructure coincide with the energies of longitudinal optical phonons of the corresponding massive three-dimensional analogues of nanocrystals.

The energies of interface phonons are obtained from the solution of the corresponding dispersion equations, and their value depends on the geometrical parameters of the nanostructure.

I. V. D. Pham, K. Kanisawa, and S. Fölsch, Quantum Rings Engineered by Atom Manipulation, Phys. Rev. Lett. 123, 066801 (2019).

Co-organizers of conference:
Institute of Physics of the NAS of Ukraine,
Ukraine;
Lviv Polytechnic National University;
University of Turin, Italy;
Pierre and Marie Curie University
and CNRS, France;
University of Tartu, Estonia;
Representative office of Polish Academy of
Sciences in Kiev;
EEN-Ukraine Consortium.

Partners of Conference

Springer
Taylor & Francis Group, LLC

Organizing Committee Members of conference:

Chairman: NASU academician A.G. Naumovets, Vice-President of the NAS of Ukraine;
Vice-Chairman: NASU academician L.P. Yatsenko, Director of Institute of Physics of the
NAS of Ukraine;
NASU corresponding member A.V. Ragulia, Problems of Material Sciences Institute,
NAS of Ukraine;
NASU corresponding member V.N. Uvarov, Metallophysics Institute, NAS of Ukraine;
NASU academician M.S. Brodny, Institute of Physics, NAS of Ukraine;
NASU corresponding member A.M. Negriyko, Institute of Physics, NAS of Ukraine;
Petro Fochuk Yuriy Fedkovych Chernivtsi National University, Ukraine;
Yuriy Khalavka Yuriy Fedkovych Chernivtsi National University, Ukraine;
Victor Martynyuk, Taras Shevchenko national University of Kyiv;
Oleksandr Bediukh, Taras Shevchenko national University of Kyiv.

International Committee:

Prof. Henryk Sobczuk, Representative office „Polish Academy of Sciences” in Kyiv;
Dr. A. Damin, University of Turin, Italy;
Prof. Dr. habil. Emmanuelle Lacaze, Pierre and Marie Curie University and CNRS,
France;
Prof. Bouchta Sahraoui, University of Angers, UFR Sciences, Institute of Sciences and
Molecular Technologies of Angers, France;
Prof. Bakolas Dimitris, European Profiles A.E., Greece;

Dr. L.A. Dolgov, University of Tartu, Estonia;

Prof. Mohamed Bououdina, University of Bahrain, Kingdom of Bahrain;

Prof. Dr. Annemarie Pucci, Kirchhoff Institute of Physics of the Ruprecht-Karls University of Heidelberg, Germany.

**Local Organizing Committee
of the Lviv Polytechnic National University**

Prof. I.V. Demydov, Vice-Rector for Scientific Work Lviv Polytechnic National University.

Prof. B.A. Lukyanets, Department of the Applied Physics and of Nanomaterials Science of the Lviv Polytechnic National University.

Prof. A.S. Andrushcha , Head of the Department of the Applied Physics and Nanomaterials Science of the Lviv Polytechnic National University.

Ass. Prof. F.O. Ivashchyshyn, Department of the Applied Physics and of Nanomaterials Science of the Lviv Polytechnic National University.

Dr. H.A. Ilchuk, Department of General Physics of the Lviv Polytechnic National University.

Prof. P.P. Kostrobii, Head of the Department of the Applied Sciences of Mathematics at the Lviv Polytechnic National University.

Prof. B. Markovych, Department of the Applied Science of Mathematics at the Lviv Polytechnic National University.

Dr. O.V. Balaban, Department of the Applied Physics and of Nanomaterials Science of the Lviv Polytechnic National University.

Ph.D.-M.Sc. B. Ya. Vengryn, Department of the Applied Physics and Nanomaterials Science of the Lviv Polytechnic National University.

Dr. A.B. Danylov, Department of the Applied Physics and of Nanomaterials Science of the Lviv Polytechnic National University.

Dr. Z.O. Kohut, Department of the Applied Physics and Nanomaterials Science of Lviv Polytechnic National University.

Ass. Prof. T.D. Krushelnitska, Department of Applied of Physics and Nanomaterials Science of the Lviv Polytechnic National University.

Ph.D. D.V. Matulka, Department of the Applied Physics and of Nanomaterials Science of the Lviv Polytechnic National University.

Dr. R.Ya. Shvets, Head of Laboratory, Department of Applied Physics and of Nanomaterials Science of the Lviv Polytechnic National University.

Chairman of Local Committee and Secretary of Conference:

Dr. O. M. Fesenko, Institute of Physics of NAS of Ukraine.

Local Committee:

Dr. O. Budnyk, Dr. Y. Kifiuk, Mr. A. Yaremkevich, Mr. V. Tkachenko, Dr. V. Hrynn, Mr. P. Golub, Mr. M. Rallev, Mr. S. Starinets.

Наукове видання

The International research and practice conference

"Nanotechnology and nanomaterials"

(NANO-2023)

**Book of abstracts is published in authors' edition without
modifying by the Organizing Committee**

Head of Organizing Committee:

Dr. Olena Fesenko, Institute of Physics of the NAS of Ukraine

Design and layout: *Volodymyr Havlo*

Technical support of the International conference (NANO-2023): Junior Researchers of the Institute of Physics of the NAS of Ukraine: A. D. Yaremkevych (media assistance), Y. S. Kifiuk (sound equipment and photo report), O. P. Budnyk (registration of participants and general questions), V.O. Hrynn (general questions) and P.V. Golub (technical support), Leading Engineers of the Institute of Physics of the NAS of Ukraine: M. V. Rallev (information and transportation support), S. Starinets (registration support) and V. S. Tkachenko (poster session support).
